Two parts (10:1) Acrylic Adhesive (KA series)

Two-component acrylic-based adhesive of cured at room temperature. No special surface treatment is required. This resin has excellent adhesion to many low surface energy materials after curing. It can replace screws, rivets, plastic welding and two-step processes, including of chemical etchants, primers or surface treatments in many applications.

- Multi-function
- High shear strength
- No surface pre-treatment
- 2011/65/EU RoHS regulations
- Excellent chemical resistance / water resistance
- Solvent free, isocyanate free, siloxane free, low VOC
- Room temperature cured (25~33 °C)

Address:

No. 36, Dougong 6th Rd., Douliou City, Yunlin County, 640153 Taiwan

Product Introduction

		Color	Viscosity	
KA001	KA001A	Milky	1,000 ~ 2,500	Low viscosity and flowable adhesive Standard product
	KA001B	Light yellow	250 ~ 400	
KA003	KA003A	Milky	70,000 ~ 75,000	High viscosity and Ti Anti-sagging adhesive
	KA003B	Light yellow	45,000 ~ 57,000	
KA004	KA004A	Black	2,000 ~ 3,000	Low viscosity and Ti Low shrinkage Smooth surface
	KA004B	Light yellow	1,000 ~ 2,000	
KA005	KA005A	Light orange	3,000 ~ 4,000	Excellent PA adhesive Viscosity can adjust (low ~ high) Excellent weatherability and heat stability
	KA005B	Light yellow	11,000 ~ 12,000	
KA005-1	KA005-1A	Black	3,000 ~ 4,000	Excellent PA adhesive Color can adjust Excellent weatherability and heat stability
	KA005-1B	Light yellow	11,000 ~ 12,000	
KA006	KA006A	Black	2,000 ~ 3,000	Thermal aging resistance Longer working time (ca. 10 mins) Initial curing time (ca. 60 mins)
	KA006B	Light yellow	45,000 ~ 57,000	
KA008	KA008A	Milky	5,000 ~ 6,000	Low surface energy plastics, metal, and electroplate substrate Good adhesion, initial curing time (ca. 60 mins)
	KA008B	Light yellow	10,000 ~ 11,000
